*Bulky and lace weight yarns require consultation.

- Fiber available for blending. Price varies with fiber.
- Long-wool type fibers and double coated fleeces often require blending with finer micron wool to process on our equipment. We will blend the minimum percentage necessary to produce a high-quality product. Ask us about what your particular wool requires.
- **To estimate the price for your fiber:** Add up the cost of each necessary step. Fine can wools lose up to 75% weight in scouring. Coarser wools can lose as little as 25%.
- Full payment is due 14 days after invoice is emailed.
- 15 days after invoice is emailed, a \$25 late fee is added.
- Unpaid orders left after 45 days from billing become property of Mendocino Wool and Fiber Inc. Processing fees are still due.
- You are responsible for the condition and quality of the raw fiber being delivered to the mill.
- We do not scour finished yarn.
- Some mill waste is expected throughout processing and varies depending on fiber condition and type.
